

Domestic Terminal Upgrade Project

Brisbane Airport Corporation (BAC) is committed to providing infrastructure to ensure the Domestic Terminal has the capacity to cope with future demand.

Work on the Domestic Terminal Upgrade Project is well underway, and various components will open in stages over the next six months. These stages will include:

- The opening of Levels 2 to 5 of the new multi-level car park (MLCP),
- The opening of a new public pick-up and drop-off road,
- The completion of the elevated walkway between the terminal face and the new car park, known as the Domestic Terminal Access Project (DTAP), and
- The reconfiguration of other roads in front of the Domestic Terminal.

Further information about the staged opening of the MLCP and DTAP will be included in coming updates.

Domestic Terminal Access Project night works – Tuesday 2 August

Work will continue throughout August on the DTAP. Temporary road closures and diversions will be in place from 8pm Tuesday 2 August until approximately 5am Wednesday 3 August, weather permitting.

These closures are to facilitate concreting works above the roads in front of the terminal. During this period up to 60 concrete trucks will need to access the former car rental road, currently closed to traffic, and the ground transport operator road.

At the same time temporary closures of sections of footpaths under tunnels on the public drop-off road and the ground transport operator road are required. Traffic controllers and signage will direct all road users and pedestrians. Please travel carefully through the works area.

When complete the DTAP will provide an elevated walkway over the terminal roads that will connect passengers from the new car park directly to the ground immediately outside the Domestic Terminal.

An artist's impression of the elevated walkway that will link the new multi-level car park to the front of the Domestic Terminal.

New Multi-Level Car Park at Domestic Terminal

Work on the new multi-level car park for short term parking is progressing well. Car rental pick-up and drop-off has now moved to a permanent location on Level 1 of the new MLCP.

On completion this car park will add a further 5,000 parking bays, bringing the total complement of parking bays in the Domestic Terminal precinct to around 9,000.

A number of new facilities have been introduced into the existing multi-level car park at the Domestic Terminal and these will be replicated in the new car park, including:

- Convenient access to pay machines in the lift lobbies on every level of the car park, including ground level
- Easy access to face-to-face customer service on the ground floor
- Automatic payment options
- Guaranteed undercover parking when pre-booking (this parking is limited so book early to secure a park).

Vehicle height restrictions at Domestic Terminal

A 3.8 metre height restriction is in place for all vehicles using the roads in front of the Domestic Terminal at Brisbane Airport and will be enforced until late September 2011.

This height restriction is in place to facilitate the construction of a new pedestrian overpass across the Domestic Terminal face roads.

When the overpass is completed, height clearance will be 4.5 metres.

Public trucks, buses and coaches

- There will be no access to the roads in front of the Domestic Terminal for any vehicle higher than 3.8 metres.
- Bus operators not registered with Brisbane Airport Corporation but wishing to set down or pick up passengers must contact 1300 732 240 to make alternative arrangements.

Information for Licensed Ground Transport Operators (GTOs) at Brisbane Airport

- A new location within the Domestic Terminal precinct has been provided for GTO vehicles higher than 3.8 metres for passenger pick-up and drop-off. A separate flyer has been provided showing the new location.
- For enquiries, GTOs should contact 1300 732 240.

General airport advice

If you are an on-airport business and expecting truck deliveries, please advise your suppliers about the vehicle height restrictions at the Domestic Terminal.

Convenient car park payment options at Brisbane Airport

Parking at Brisbane Airport has never been easier.

Option 1: Insert your credit card at the entry gate: no ticket is issued. Then simply put the same credit card in when you exit. A receipt will be issued by pushing the button. You're out with no paper tickets and queues at pay machines.

Option 2: Collect a paper ticket on entry, pay by cash or credit card at the automatic pay machines on any level of the car park or pay at the exit boom gate pay machine by first entering your ticket, then your credit card.

Domestic Terminal motorcyclists only: on entry collect a paper ticket and present it to the new customer service window.

Construction activity on Airport Drive

Construction work will be undertaken at a site adjacent to the Shell Service Station on Airport Drive during August.

This construction work will be ongoing for approximately one year and will result in additional trucks using Airport Drive and entering and exiting the work site. Traffic management and signage will be in place to assist motorists. Road users are advised to drive with care during the construction activity.

Gateway Upgrade Project

New Gateway Motorway northbound and southbound

Night time lane closures will be in place for asphaltting works on the new Gateway Motorway northbound and southbound in the vicinity of Airport Drive overbridge and Moreton Drive interchange. Works will be undertaken in early August between 8pm and 4.30am, weather permitting.

Sir Leo Hielscher Bridges Precinct

Eagle Farm to Murarrie: Sir Leo Hielscher Bridge

Intermittent lane closures will be in place for finishing and maintenance works northbound and southbound on the Sir Leo Hielscher Bridges between Kingsford Smith Drive and Lytton Road, including the approaches to and from the Southern Cross Way, new Gateway Motorway, Lytton Road and the Port of Brisbane Motorway. Works will be undertaken between 8pm and 4.30am, as required.

For further information regarding the Gateway Upgrade Project please visit www.gatewayupgradeproject.com.au or contact the Project Team on 1800 700 525.

PARK GLOBAL TO FLY LOCAL

Avoid delays in the Domestic Terminal precinct – park at the International Terminal and with your valid parking ticket travel free on the orange T-bus to the front door of the Domestic Terminal.

No queues, no diversions and a transfer to the doorstep of either Qantas or Virgin Australia. Choose one of the 1,700 undercover bays and go to the bus stop on Level 2 of the terminal. T-bus runs from 5.10 am to 10.35 pm daily, leaving every 20 minutes and every 10 minutes in peak. Parking for seven days is just \$99.

GUARANTEED UNDERCOVER SPACE NOW AVAILABLE AT THE DOMESTIC TERMINAL MULTI-LEVEL CAR PARK

Book online to secure a guaranteed undercover space in the Domestic Terminal multi-level car park. Visit www.bne.com.au, book one of the limited spaces and print your booking receipt for display.

The Guaranteed Space area is located next to Valet parking on level three – simply follow the signs to ParkValet and use the speed entry ramp to avoid any car park queues.

Cost: normal parking rates plus \$10 booking fee

Features:

- Guaranteed undercover space
- If space is unavailable BAC will valet park your car and waive valet charges
- Option to use your credit card as your ticket to enter and exit the car park via the express ramps
- Open 24 hours a day, 365 days a year
- All major credit cards accepted
